Home - School Agreement 2019 – 2020

This document outlines the principles between the school, its students and parents.

This partnership agreement is intended to reinforce the student's positive experience at Broadoak Academy.

Values and Ethos

Everything we do at Broadoak is underpinned by and driven by our values.

We seek **excellence** from and for our students at Broadoak; we believe excellent outcomes can be achieved for all young people by promoting the highest standards of teaching, behaviour for learning and care and support. We have high expectations not only of our young people but also of those who work in our school. Excellence means we work hard, persevere when things are challenging and take pride in all that we do – we don't settle for 'good enough'!

At our heart, we are deeply rooted in our sense of **community**. We believe that everyone has a valuable contribution to make to Broadoak; we invest in relationships and believe that through working and learning together, we can achieve more. We recognise and promote our responsibilities to support each other's happiness and wellbeing.

We are an **inclusive** community and seek positive outcomes for all of our young people. We do this through support, collaboration and partnership working with parents and carers. Tolerance and respect for individual identities allows us all to flourish. We recognise our similarities and differences and celebrate these. We seek to understand and value the traditions and beliefs we all bring to our community.

We are **open minded**. At Broadoak we use our imaginations to be inspired and creative. We embrace challenges and seek to learn from them. We are ambitious for our school and all who work in it. We believe in the potential of all, with hard work and determination, to achieve great things.

At Broadoak we inspire a **love of learning**. We grow students' knowledge, skills and understanding for success in school and beyond. We do this with a stimulating, challenging curriculum that allows students to feel excited by learning both in and out of lessons. This provides a platform for lifelong success, as young people leave us with the confidence and skills to be successful in a rapidly changing world.
